Pil Sung Colored Belt Test

The following lists all possible outcomes of colored belt testing:

PASS: Student has met or exceeded the set requirements for the rank he/she is testing for. Upon passing, the student will receive their respective rank and certificate

RETEST FORMS: Student has met most of the requirements for his/her test, although the forms portion was deficient. The student must see Mr. Hasan to retest forms before rank will be awarded.

**PROBATION:
(12yo and under only)** Student was able to demonstrate knowledge of the requirements for his/her test, however there was either a lack of focus, lack of power, or overall poor implementation of one or more areas of the test. While the student was able to get through" the motions, the techniques were not demonstrated with enough proficiency for full rank promotion.

Under probation, a student will be allowed to wear the new rank color, however must retake and the full colored belt test within 30 days to receive a certificate.

RETEST Student did not perform up to the expected standards. Student must wait until the next colored belt test is offered and retake (and pass) the entire exam prior to rank and certificate being awarded.
